President's Corner

Greetings:
As CECA, LLC approaches our 10th anniversary, it provides the opportunity to reflect on the challenges and accomplishments we have experienced during this journey. I would like to take this opportunity to thank our many customers and clients who have allowed us to become partners with them in their endeavors. The business of providing service and support to help the construction and development industry achieve its goals is what fuels us. I want to also thank all the current and former CECA, LLC personnel who have become part of our family and have helped shape us in to the organization we have become. We reflect for a moment...and we push forward on our continuing journey, in pursuit of excellence, to provide opportunity and growth for our personnel and striving to enhance the community in which we reside.

Best,
L.Terry Cames, P.E.

CECA produced Mechanical, Electrical and Plumbing drawings for the 4000-seat facility, the First Baptist Church of Glenarden.

Divisional News: CECA Inspections

This division of CECA generated \$1.3 million in Revenue the last Fiscal year; this division has been a vibrant entity within CECA. The inspection group provides services that meets and exceeds the needs and expectation of our Clients, our qualified personnel perform general building, mechanical, plumbing, electrical and fire protection inspections.

The inspection group has a stake hold on the Inspections at the Prince George's County Multi Billion Dollar Projects at the National Harbor. This project is slated for completion in 2010, and we are guaranteed a substantial market-share of the inspection services provided we maintain our reputable consistency and reliability with the current schedules and continue with our relentless pursuit of customer satisfaction.

Divisional News: Architecture and Engineering

CECA's Architectural and Engineering Division has been widely recognized by our clients as innovative and thoughtful. Our approach towards projects is interdisciplinary "one-stop-shop" for all your Architecture and Engineering design needs. We are also in the process of designing green and environmentally responsible, high performance projects, which will lead us to Professional accreditation by USGBC.

Our current projects include multi-family residential, educational and religious: World Missions Ministries Church in Clinton, Maryland; El Bethel Prayer Tabernacle, Inc. in Baltimore, Maryland; Williams Development, Washington, DC; multiple Dunkin Donuts sites, & Nastos Construction Headquarters.

Spotlight at CECA

Divisional News: Electrical Construction

Our team of electricians have advanced knowledge of the National and Local Electrical Codes. CECA prides itself on the competency of our personnel, we offer routine in-house training and promote education of the staff by sending them to attend courses on safety and code applications at local colleges. This ensures that our clients will get the best value for their resources and meet inspection demands with qualified personnel. Our estimation and management have extensive experience in utility company's designs and installation requirements.

Current Projects in Energy Conservation are: Fort Myers and Prince George's County Public Schools. Other Projects include: Design/Build & Electrical Services – Bible Babies, and the completion of a 59,900 square foot USA Discounters in Woodbridge Va.

The Children's Guild Golf Classic

CECA is sponsoring the **First Annual Children's Guild Golf Classic**. This inaugural tournament is **Friday, May 30, 2008 at Renditions Golf Course** in Davidsonville, Maryland. The tournament's goal is to **raise \$25,000 to benefit the Children's Guild's Chillum School**. The Chillum School is currently raising funds for the construction of a gymnasium/ multipurpose building on the grounds of its campus at 5702 Sargent Rd., Chillum, Maryland. The School, located in Prince George's County, currently has no indoor facility on school grounds to support its physical education program and assembly needs.

Reid Temple A.M.E. Church – New Construction Spring 2005
